Subject: RE: Fw: Pics of palms

Hi Roy,

The palm looks great! Nice job. I thought it wasn't the standard Butiabecause of its color and the frawns looked a little different. I really like it. I will make sure I tell folks to give you a call if they have a need for any type of palm work. I have contact with quite a few folks here in Qualcomm.

Once again, thanks!

Regards,

Brian
